Interior Architect: Dipl. Ing. Klaus Bürger

Your pharmacy's future starts now

Equip your pharmacy for the digitalized future while creating a unique and modern shopping experience, which results in higher customer loyalty and increased revenue while relieving the strain on your pharmacy's employees!

CareApo24-Terminal is an automated dispensing and sales system of the newest generation. It can be integrated into your pharmacy's storefront where it acts as a 24/7 sales channel of all OTC goods. **CareApo24-Terminal** sources all goods directly from robotic pharmacy systems!

1.

24/7 sales of goods

Round-the-clock sales with- out restrictions on opening hours! Discrete and convenient shopping experience at any given time of the day.

2.

24/7 pick-up of preordered goods

Pick-up of preordered items without dependency on opening times, e.g., on the way home from work.

3.

100% with online store and inventory management

Software for modern user experience and efficient management.

Use CareApo24-Terminal as an additional sales channel for your pharmacy and offer contactless service at any time of the day!

Benefits for your pharmacy in detail:

Increased revenue through 24/7 availability – an automated extension of your opening hours results in higher-quality service and better availability of your offerings for your customers – convenient and contactless.

Strengthen your local positioning – through 24/7 direct sales and order & collect – service after consultation, you will strengthen your local degree of supply – more quickly, more flexible, and more convenient than any online shop!

Make use of the enormous product variability of CareApo24-Terminal – All OTC goods can be sold through **CareApo24-Terminal**.

Reducing the burden on staff – Instead of making your staff perform routine tasks, self service pickup leads to more human resources for more important activity such as consultation.

Straightforward and logical software – Due to intuitive and simple software design, your customers and staff experience a modern interface (UX, user experience) including possibilities for remote administration.

Analytics and integration – The software comes with customer analytics – your inventory system is synchronized via the pharmacy robotic system – sales data can be exported for further analysis.

Documents and compliance – The recording and documentation of all processes is fully compliant with all data protection and reporting obligations.

100% made in Austria with on-site support – We are constantly available for service and support, together with us you strengthen the local economy.
